Activity Overview | **2018**

Speak Up. Educate. Share Responsibly

#DEFYHATENOW

## SPEAK UP. EDUCATE. SHARE RESPONSIBLY.

*#defyhatenow is an urgent community peacebuilding, training and conflict reconciliation project aiming to strengthen the voices and support the actions of peace & youth oriented civil society organisations in South Sudan.*

#defyhatenow aims to raise awareness of and develop means to mitigate social media based hate speech, conflict rhetoric and online incitement to violence.

#defyhatenow seeks to support those voices acting against the conflict to go 'viral' within and outside the country – also bringing the South Sudanese diaspora into the online peace building framework, bridging gaps of knowledge and awareness of social media mechanisms between those with access to technology and those without.

#defyhatenow: Mobilising Civic Action Against Hate Speech and Directed Social Media Incitement to Violence in South Sudan.

## PROJECT PARTNERS & FUNDING

#defyHatenow is an initiative to combat social media hate speech by the rog\_ agency for open culture and critical transformation, Berlin, funded by the ifa – Institut für Auslandsbeziehungen (zivik) with means of the German Federal Foreign Office (Auswärtiges Amt)."

22<sup>nd</sup> Sept 2018**Women in leadership & peacebuilding**

Nairobi, Kenya

Women have traditionally played a limited role in peace-building processes even though they often bear the responsibility for providing for their families' basic needs in the aftermath of violent conflict. They are especially likely to be unrepresented or underrepresented in negotiations, political decision-making, upper-level policymaking and senior judicial positions. Many societies' patriarchal cultures prevent them from recognizing the role women can play in peace-building.

### International Day of Girl

French Institute Hall - Juba South Sudan

Today's generation of girls are preparing to enter a world of work that is being transformed by innovation and automation. Educated and skilled workers are in great demand, but roughly a quarter of young people – most of them female – are currently neither employed or in education or training according to United Nations. Transferable skills – such as self-confidence, problem solving, teamwork and critical thinking – are critical to succeed in the rapidly changing world of work, yet many schools do not focus on these "21st century skills," including STEAM (Science, Technology, Engineering, Arts and Math) education.
