SAFE SISTERS ONLINE

Options to increase security on social media:

- Untag yourself from embarrassing posts or photos.
- Leave groups, limit access to only your friends.

How are women & girls portrayed online?

- Think before you post and share statements, comments, or jokes.
- Consider the impact your words might have and if it's offensive.
- Ask: "How would I feel if I was one of the group being insulted?"

Make better passwords

- Make it fun! Creating a strong passphrase from favorite song lyrics.
- Use special characters, numbers and capital letters.
- Don't use the same password for multiple accounts.

Think before you click:

- Don't click on suspicious looking links and attachments.
- Be skeptical of strange emails from people you don't know.
- Pay attention to the sender's info and the contents of the email.

Always log off

- Review security settings on your phone and computer.
- Add a password to get into your devices.
- Always sign out when you leave a shared computer or phone.

Be careful with what you post online

- It's almost impossible to remove an image or text after you post it online! Think about what you share before you post online.
- Review your privacy settings on the social media apps and sites. Limit permissions (location, microphone, contacts) and who sees your stuff.

Be your sisters' keeper

- Photos leaked online bring suffering to a lot of women. Look out for sisters! Don't forward inappropriate content on the internet.
- Delete and report people who use their accounts as a platform for online bullying and violence against women.
